## IRONING BUCKS FOR TROUSERS SEAM OPENING AND IRONING

# OCTOPUS

Add value to your ironing

Adjustable Vacuum Indicator

Adjustable Height

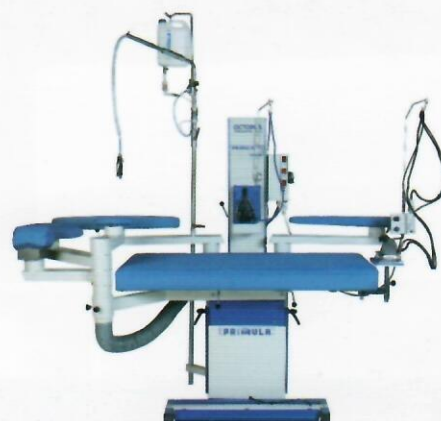

Rotating Iron Rest

## Compact Ironing Table

The ideal solution that the smaller garment manufactures have been looking for. The Octopus' flexibility lies in its capability to mount up to five different bucks on it and work on them simultaneously, thus receiving a professional finish to jackets and trousers without having to invest in separate pressing equipment.

Primula S.A can provide a wide variety of bucks to suit each customers' individual needs and transform the Octopus to a specialized table, whether it is for finishing, opening seams or underpressing.

# OCTOPUS

Add value to your ironing
